**Subject:** Oil and Gas Enforcement Case Summary

Jim:

Below is an update on our Oil and Gas work. If you could send us an update of OhioEPA's work, we'd appreciate it,

### Ongoing Cases:

[REDACTED] multiple sites - open case, still negotiating, finalizing consent decree. We are waiting for signatures from the company on the consent decree.

[REDACTED] multiple sites- open case, still negotiating , consent decree was lodged in mid April 2018, and is pending entry as we respond to a few minor public comments.

[REDACTED], multiple sites - open case, still negotiating. Region 5 met with [REDACTED] on 7/10/18 to discuss the case and federal/state involvement.

[REDACTED] multiple sites - open case, still negotiating, referred to DOJ.

[REDACTED] - open case, a draft ACO has been sent to the company. We are waiting for a reply. No apparent overlap with OhioEPA's [REDACTED] cases.

[REDACTED] - open case, NOV sent January 2018, negotiating with the company. This site will likely be settled separate from any global [REDACTED] case.

[REDACTED] - Work led by EPA OECA HQ may expand into Ohio, as we discussed.

[REDACTED] - Work led by EPA OECA HQ may expand into Ohio, as we discussed.

### Completed Inspections with No Further Action at this time:

Eclipse - No further investigation or enforcement planned at this time.

CNX Noble 11 and Noble 33 - No further investigation or enforcement planned at this time.
